

ARK STAINLESS INC

FORGING FUTURE IN METALS

► Company Profile

About Us

Ark Stainless Inc. epitomizes excellence in the metal manufacturing industry, boasting a rich legacy of over two decades. As an MSME, MAASMA, and ISO 9001:2015 certified company, we have established ourselves as a trusted manufacturer and solution provider, catering to a diverse clientele including MNCs and blue-chip companies. Our journey began with a vision to redefine industry standards through a relentless pursuit of quality and innovation, and today, we stand as a testament to our unwavering commitment to excellence.

At Ark Stainless Inc., customer satisfaction is at the heart of everything we do. We take pride in our ability to understand and address the multifaceted needs of our clients, offering bespoke solutions tailored to their unique requirements. Whether it's flanges, pipe fittings, fabricated products, or raw materials, our extensive product range reflects our dedication to versatility and quality. We ensure prompt and efficient delivery to meet even the most demanding project timelines.

What truly sets us apart is our unwavering focus on quality assurance and compliance. Our state-of-the-art testing protocols, including Positive Material Identification (PMI), Ultrasonic, Spectro Test, and metallurgical examinations, ensure the integrity and reliability of our products. Additionally, our commitment to compliance with international standards and customer specifications is reflected in our thorough material certification process. Partner with Ark Stainless Inc. for a seamless supply chain of advanced steel raw materials tailored to your exact technical specifications, and experience the difference of working with a trusted industry leader.

Our Mission

At Ark Stainless Inc., our mission is to:

- ▶ Foster a culture of social responsibility and sustainability in all business practices.
- ▶ Promote education and skill development within the communities we serve.
- ▶ Ensure the highest standards of product quality and customer satisfaction.
- ▶ Collaborate with local businesses and suppliers to support regional economic growth.
- ▶ Create a safe and inclusive workplace that values diversity and employee development.
- ▶ Actively engage in initiatives that promote environmental conservation and reduce our ecological footprint.

Our Vision

Our vision is to:

- ▶ Expand operations, scale up, and open more units for a profound global impact.
- ▶ Be a catalyst for positive transformation in lives and communities on a global scale.
- ▶ Set industry benchmarks in environmental sustainability and ethical business conduct.
- ▶ Embrace cutting-edge technologies to remain at the forefront of the metal manufacturing industry.
- ▶ Cultivate a workplace culture that encourages creativity, diversity, and employee well-being.

Product Range

Unleash your creativity with our diverse product range, where every item is a testament to our commitment to excellence and customer satisfaction, offering solutions that inspire and endure, exclusively at Ark Stainless Inc.

Flanges

Engineered for precision and reliability, our flanges ensure optimal performance in diverse industrial applications. Available in a wide range of sizes and grades, including SS 304/L, SS 316/L, SS 321, Titanium, Duplex, Super Duplex, Hastelloy, Inconel and Monel, our flanges provide versatile solutions for various piping systems.

Pipe Fittings

Socketweld

Buttweld

From butt weld fittings to socket weld fittings, our comprehensive line meets the highest standards of durability and reliability. Crafted with precision and available in sizes ranging from 1/2" to 24", our pipe fittings are designed to withstand the rigors of industrial environments, ensuring seamless connections and optimal flow.

Olet Fittings

Designed to withstand high-pressure environments, our outlet fittings offer unmatched strength and resilience. Available in various configurations and sizes, our olet fittings are crafted with precision to meet the most demanding specifications, providing reliable connections for critical applications.

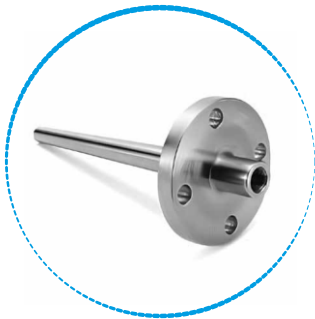

Bends

Engineered for precise flow control and durability, our bends are crafted to meet the most demanding specifications and requirements. Our bends ensure seamless flow in pipeline systems.

Thermowells

Our thermowells are designed to provide accurate temperature measurement and durability in industrial processes. Crafted with precision and available in various sizes and grades, including SS 304/L, SS 316/L, Duplex, Super Duplex, and Monel, our thermowells ensure reliable performance in challenging environments.

Fasteners

Crafted for precision and durability, our fasteners are designed to provide secure connections in a wide range of applications. Our fasteners ensure reliable performance in demanding conditions.

Ferrule Fittings

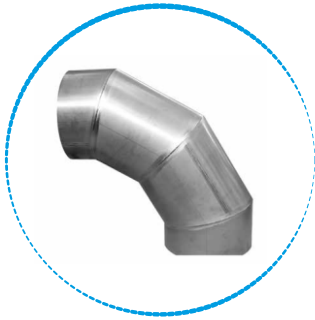

Our ferrule fittings are engineered for precision and reliability in instrumentation and control systems. Our ferrule fittings provide leak-free connections for critical applications.

Fabricated Products

Embrace innovation seamlessly woven with tradition in our fabricated products, where every detail is meticulously honed to perfection, elevating your creations to new heights of sophistication and functionality. Experience the synergy of cutting-edge technology and artisanal expertise at Ark Stainless Inc.

Mitered Bend

Crafted with precision and expertise, our mitered bends ensure seamless integration and superior performance. Our mitered bends provide reliable solutions for complex piping configurations, offering enhanced flow control and durability.

Flanged Elbow

Engineered for durability and precision, our flanged elbows are ideal for high-pressure applications. Our flanged elbows offer superior corrosion resistance and ensure seamless flow in piping systems, meeting the most stringent requirements with ease.

Flanged Pipe Spool

Our flanged pipe spools are crafted to meet the most demanding specifications, offering unmatched strength and reliability. Our flanged pipe spools provide a secure and leak-free connection, ensuring optimal performance in critical applications.

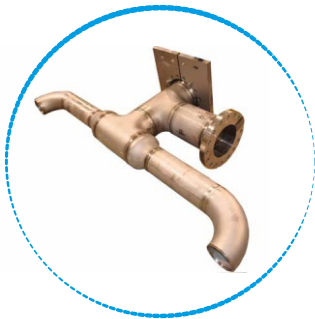

Fabricated Pipe Headers

Designed for optimal performance and durability, our fabricated pipe headers are engineered to meet the most stringent requirements. Crafted with precision and expertise, our fabricated pipe headers offer enhanced flow control and reliability, ensuring seamless integration into complex piping systems for a wide range of industrial applications.

Piping Spool Fabrication

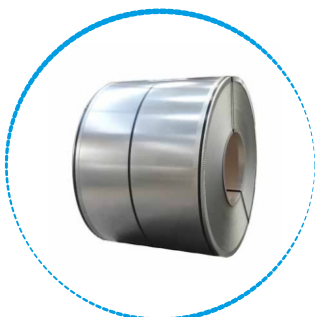

Our piping spool fabrication services are tailored to meet the unique needs of each client, ensuring precision and reliability in every project. With a team of skilled professionals and state-of-the-art equipment, we provide comprehensive solutions for piping spool fabrication, delivering superior quality products that meet or exceed industry standards.

Raw Material Stock

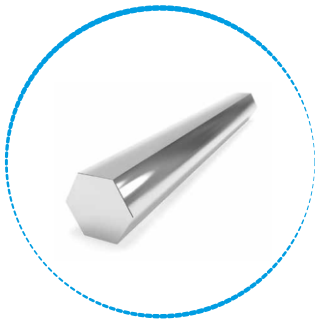

Fuel your vision with our raw material stock, meticulously sourced and inspected to ensure consistency and quality, empowering your projects with the reliability they deserve, exclusively at Ark Stainless Inc. From grade selection to sourcing, trust in our raw material stock to lay the foundation for durability and reliability, setting new standards in stainless steel supply at Ark Stainless Inc.

Sheet Plate Coil

Our wide range of raw material stocks includes sheet plate coils in various grades, ensuring suitability for a diverse range of applications. We guarantee the use of prime materials of utmost quality for all our stock, providing reliability and performance in every project.

Round Bar

From welded to seamless, our round bars come in diverse grades to suit various applications, ensuring precision and reliability. With options for matte/mirror or silver finish as per customer's request, our round bars are tailored to meet the specific needs of each project.

Pipes & Tubes

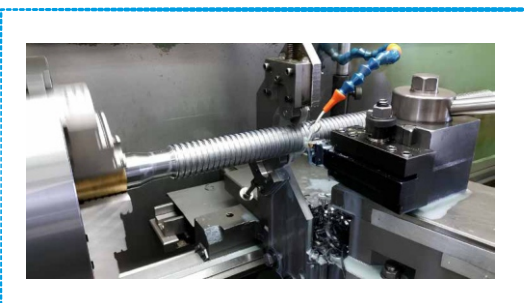

Our stock includes both black bars and bright bars, covering a comprehensive range of grades and options to meet the requirements of precision machining and structural applications. Tailored to meet the needs of precision machining and structural applications, our pipes and tubes offer versatility and durability for a wide range of industrial uses.

Services

Ark Stainless Inc. offers a comprehensive suite of services aimed at meeting the diverse needs of our clientele. From initial consultation to project execution and ongoing support, we prioritize customer satisfaction at every stage. Our services encompass design and engineering expertise, ensuring that our mass transfer solutions are precisely tailored to each client's unique requirements. We provide seamless manufacturing processes, leveraging cutting-edge technology and quality assurance protocols to deliver products of exceptional durability and performance. Additionally, our logistics and delivery services ensure timely and reliable distribution to clients across the globe.

Bevelling & Threading

Bevelling: Our expert technicians ensure precise bevelling to meet specific welding requirements, guaranteeing seamless joints and optimal structural integrity.

Threading: With state-of-the-art equipment and meticulous attention to detail, we provide accurate threading services for a variety of pipe fittings, ensuring secure and leak-proof connections.

Acid Cleaning & Pickling

Acid Cleaning: Our acid cleaning process removes surface contaminants and impurities, restoring stainless steel surfaces to their original luster and enhancing corrosion resistance.

Pickling: Through meticulous pickling, we eliminate scale and oxide buildup from stainless steel surfaces, ensuring a clean and pristine finish that meets the highest industry standards.

Test Services

Performance Testing: We conduct rigorous performance testing to verify the reliability and durability of our products, ensuring they meet the most demanding specifications and requirements.

Sandblasting & Mirror Polishing

Sandblasting: Utilizing advanced sandblasting techniques, we achieve uniform surface preparation for various metal components, enhancing adhesion and coating durability.

Mirror Polishing: Our mirror polishing services provide a flawless finish to stainless steel surfaces, enhancing aesthetics and corrosion resistance, ideal for architectural and decorative applications.

Cutting to Length

Precision Cutting: Our cutting to length services utilize state-of-the-art equipment to achieve precise dimensions and tolerances, ensuring accuracy and consistency for every project.

Customized Solutions: We offer customized cutting solutions to meet the unique requirements of each client, providing flexibility and efficiency in material preparation for fabrication and assembly processes.

Contact Us

Ready to embark on your stainless steel journey with us? Reach out to our dedicated team today and let Ark Stainless Inc. be your partner in excellence. Whether you seek expert advice, custom solutions, or simply wish to connect, we're here to listen and assist every step of the way. Your vision, our passion – let's forge the future together.

We prioritize building lasting relationships with our clients. Your satisfaction is our utmost priority, and we are committed to providing unparalleled support and service. Whether you're a seasoned industry professional or a newcomer seeking guidance, our knowledgeable team is here to ensure your experience with us is seamless and rewarding. Contact us now and discover why Ark Stainless Inc. is the trusted choice for all your stainless steel needs.
